

Cloud Native SECURITY DAY EUROPE

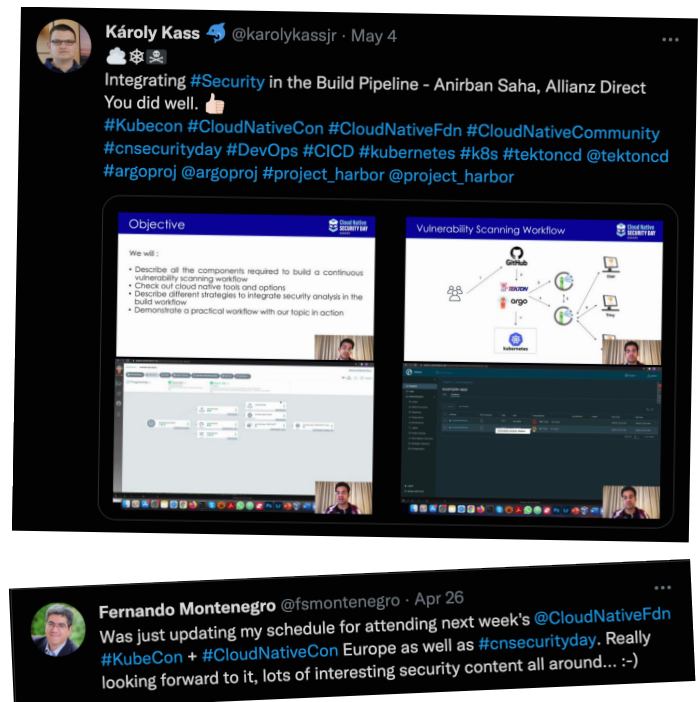

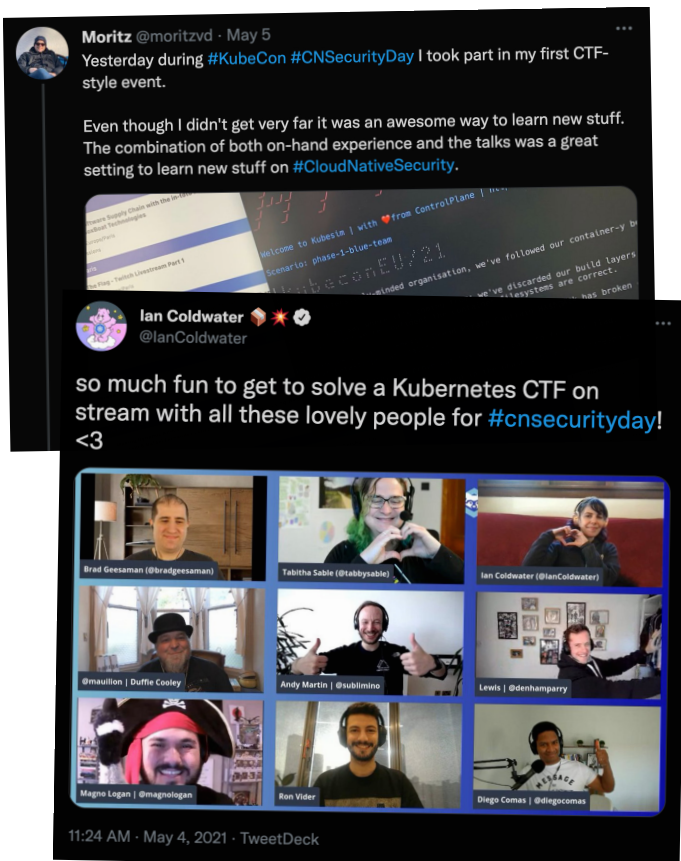

MAY 4, 2021 | VIRTUAL

OVERVIEW

Cloud Native Security Day is designed to foster collaboration, discussion and knowledge sharing of discuss cloud native security projects and how to best use these to address security challenges and opportunities. The goal is not just to propose solutions that incrementally improve what has come before, but to give room to breakthrough technology and advances in modern security approaches. Topics of sessions and lightning talks presented by expert practitioners include architecture and policy, secure software development, supply chain security, identity and access, forensics, and more.

In addition to engaging sessions, a hosted Capture The Flag (CTF) learning experience will run in parallel to the event for attendees to learn first hand practical attack and defense techniques.
