JETPUBS
Elevating Aviation

JETPUBS provides the industry's best, customized experience. We work to understand your organization's training goals so that we can make recommendations that enhance learning depth and efficiency. Our products are tailored to your fleet, giving your students the most relevant training experience possible.

Cockpit Posters[1]

Cockpit posters help build muscle memory, saving students time in the aircraft and simulator. Standard sizes include:
- Pilot Size (18" x 36") best for individual study
- Briefing Size (24" x 42") best for classroom learning
- Life Size (36" x 4'-6') best for classroom learning

Custom sizes, folding, lamination, mounting/framing , and other finishing are also available.

System Schematics[2]

Full color schematics are best for understanding aircraft systems. Standard sizes include:
- Fold Out Size for individuals (11" x 17")
- Briefing Size for classrooms (24" x 36")

Custom sizes, folding, lamination, mounting/framing , and other finishing are also available.

Static Procedures Trainers[3]

Build muscle memory and experience the cockpit with a customized life size static trainer.

Lights and Switches Guides

This complete, full color, compact overview of cockpit controls is ideal for oral prep with space for notes, especially when customized to your fleet

Customized Training Kits[4]

We look at what you are already providing to your students and design a training kit that is user-friendly, learning enhanced, and branded to help your students' recognition, and we take care of the logistics.

New Digital Multi-Fleet Static Trainer

Creates Training Flexibility for a Growing and Diserse Fleet

- Unlimited customization to match all your cockpit configurations

- Product dimensions and item locations are accurate and realistic

- A sigle trainer footprint to handle unlimited fleet types, giving you a deeper back up to simulator time

- Life size, high-quality graphics customizable to match your simulator and/or aircraft, with the flexibility to meet your current and future needs

* graphic similar to final product

Your best option to save money and improve efficiencies as a supplement for simulator time, to practice flows, and to improve muscle memory.

Pre-orders are currently being taken.

Complete Manuals Services

Save time and money while improving your manuals, increasing the safety of your operation, and making your life easier.

At JETPUBS, we partner with you to provide customized solutions to increase the safety and efficiency of your operation and your manuals. By combining our reset process, Online Manuals Service (OMS), and iPad App, we take care of the management of your manuals, and you are able to spend more time on the line or in the air using your manuals. We put you in charge of your manuals without putting you to work.

Manuals Reset and Technical Publications Support

Our reset process ensures your manuals are formatted in a way that echoes your operation's professionalism and structure. It takes a document in its current state and converts it to a new template or file type. This process allows for automatic updates of manual front matter, consistent template options, and easy updating of future revisions.
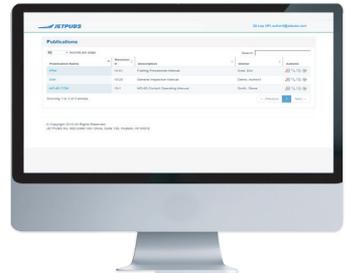

Have a manuals project you need help with? We can help. Our technical publications support offers short-term or long term help for you when you need it.

Online Manuals Service (OMS)

The JETPUBS service has forever changed the way manuals are maintained. Authors can quickly and easily mandate their own changes, track all communication, and shorten regulatory compliance from months to minutes. The OMS improves the efficiency of your manual owners and authors by 40% and saves countless hours managing and verifying compliance.

Revisions made simple

*   You focus on content while we manage formatting, standardization, spelling, and grammar.
*   Reviewers can easily see the differences between your changes and the original content.
*   When it is time to close your revision, JETPUBS updates your manual's front matter, table of contents, and revision dates. The completed revision packet is then ready for you to review and publish.

JETPUBS
Elevating Aviation

Complete Manuals Services

Save time and money while improving your manuals, increasing the safety of your operation, and making your life easier.

Compliance and Auditing

Crossreferencing made easy

- JETPUBS allows you to link any cross reference to your manual and generate a "hot" letter of compliance in just minutes.

iPad App

The JETPUBS iPad App offers a simple and effective solution to concerns such as tracking and accountability, annotations, revision updates, and protection.

- Intuitively interact with manuals
- Push updated revisions
- Control individual access to manuals
- Monitor individual manual currency

Your Partner in Future Development

In an industry that is constantly evolving, the way aviation manuals are maintained is going to experience constant innovation. We make it our number one priority to make sure you have an advocate by your side helping you to improve the safety and clarity of your manuals so you can focus on your core area of business and leave your manuals to the experts.
