The report card will generate and once the document is open it can be sent to a printer.

Please call 425-431-1133 to leave a message or email to reportcards@edmonds.wednet.edu if you have any questions about the report card process. As we shared in prior information, we have made this change in effort to see if going paperless is possible. We will survey families in early August for your feedback on this possibility.
