

WHAT IS IT?

Epicenter IOU (EIOU) is a callable zero-coupon perpetual bearer bond. Each EIOU token will, upon call, pay \$1 worth of EUSD.

Epicenter DAO, as per its treasury policy sets aside a portion of fee income to redeem outstanding bond tokens on a monthly basis.

In order to establish healthy and sustainable long-term credit markets, it is necessary to establish a “risk-free” rate of return benchmark. Epicenter DAO is determined to establish a sterling credit rating and reputation for solidity.

= \$1

of EUSD
