Public Inspection File

As of the date of this renewal of license application, all documents required to be uploaded to the station's public inspection file have been added thereto. While the licensee believes it substantially complied with the public inspection file rule during the license term, a small number of documents were uploaded after the applicable deadlines due to inadvertent administrative error.

Specifically, evidence of the station's compliance with the commercial limits in children's programming for the third quarter of 2014, documentation of the station's election of retransmission consent for 2014 and 2017, and annual EEO Public File Reports for 2014 and 2017 were uploaded to the online public file after the applicable deadlines.
