Label Query: Genus = "Leucanthemum", Species = "vulgare"

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, WAHIAKUM COUNTY:
4 miles north of Oneida, along Deep River Valley Road 1/4 mile west of junction with Anderson Road.

Elev. 50 ft.

46° 21' 35.5" N, 123° 40' 59.5" W

Weedy road side under Alnus, Thuja, near farm fields. Rays white; disks yellow; along road. Phenology: Flowers. Origin: Introduced.

Ben Legler 554

1 Jun 2003

WTU-354366

Asteraceae

Leucanthemum vulgare Lam.

RUSSIAN FEDERATION, SAKHALIN REGION:
Sakhalin Island, central part; circa 6 kilometers north-northwest of Tymovskoye and 2 kilometers southwest of Voskressnovka, on east bank of Tym River.

Elev. 328 ft.

50° 53' 26.22" N, 142° 38' 33.12" E

Cut hay fields and deciduous riparian forest of Populus, Salix. Rays white, disk yellow; weed in fields. Phenology: Flowers. Origin: Introduced.

Ben Legler 1002

29 Jul 2003

WTU-357302

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, SKAMANIA COUNTY:
Public park on south side of Highway 14 on shore of Columbia River ca. halfway in between Prindle and Skamania.

Elev. 80 ft.

45° 36' 2.1" N, 122° 6' 42" W

Old orchard, with brushy and grassy areas. Rays white, disks yellow; scattered in grass. Phenology: Flowers. Origin: Introduced.

Ben Legler 1555

5 May 2004

WTU-362167, WTU-V-045280

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, SKAGIT COUNTY:
Along gravel road on north side of Bald Mountain, ca. 3.3 miles north-northwest of Lake Cavanaugh.

Elev. 1920 ft.

48° 22' 6" N, 122° 5' 52" W

Clearcut ca. 10 years old; weedy gravelly soil along road surrounded by young Pseudotsuga, Rubus parviflorus, Alnus rubra. Ray flowers white; disks yellow; common in gravel. Phenology: Flowers. Origin: Introduced.

Ben Legler 645

28 Jun 2003

WTU-362209

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, PEND OREILLE COUNTY:
17 air miles northeast of Colville, along FS Road 4668 along Rocky Creek 0.6 miles east of junction with Rocky Creek Road.

Elev. 3060 ft.

48° 40' 35" N, 117° 36' 8" W; NAD 83

Weedy roadside and gravel bars along creek. Rays white; disks yellow; uncommon along stream. Phenology: Flowers. Origin: Introduced.

Ben Legler 2121

24 Jul 2004

WTU-382241

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, LEWIS COUNTY:
Shoulder of Highway 7 about 200 feet south of junction with Pleasant Valley Road, about 2 miles south of county line.

Elev. 1280 ft.

46° 43.986' N, 122° 12.497' W; WGS 84, uncertainty: 6 m., Source: GPS

Gravelly weedy roadside pullout and road shoulders, with Phalaris arundinacea, Leucanthemum vulgare. Ray white; disks yellow; common in gravel. Phenology: Flowers. Origin: Introduced.

Jessica Ni 15
with Ben Legler

16 Jun 2006

WTU-362903, WTU-V-045283

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, CHELAN COUNTY:
Buckner Orchard in Stehekin Valley. 1.6 miles northwest of Stehekin. Lake Chelan National Recreation Area.

Elev. 1160 ft.

48° 20' 7.1" N, 120° 42' 1.7" W; UTM Zone 10, 670414.69E, 5356124.57N; WGS 84, uncertainty: 2 m., Source: GPS

Maintained orchard. Occasionally mowed grass and gravel access roads. Rays white. Disks yellow. Locally common by barn. Phenology: Flowers & Fruits. Origin: Introduced.

Ben Legler 3526

30 Jun 2006

WTU-366841

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, CHELAN COUNTY:
Wenatchee National Forest. 5 miles from U.S. Highway 97 on Forest Road 7200 about 2 miles south of Camas Meadows. (Camas Land).

Elev. 3319 ft.

47° 26.987' N, 120° 35.272' W

Open Pine/Fir woodland. White rays and yellow disks. Phenology: Flowers. Origin: Introduced.

Doug Williams 2006-9

9 Jul 2006

with Robert Goff, Dick Olmstead, Sheila Olmstead, Maria Gerace, Cindy Spurgeon, Barb Smith

WTU-377881

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, PEND OREILLE COUNTY:
Westside Calispell Road at 4 mile post, near Bennett Road.
Elev. 2132 ft.
48° 14.9' N, 117° 19.3' W; T32N R43E S25
Dry gravel roadside and adjacent fields, with *Artemisia absinthium*,
Potentilla recta, full sun. White rays, occasional adventive.
Phenology: Flowers. Origin: Introduced.

Peter F. Zika 22494

5 Oct 2005

WTU-368318

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, KITTITAS COUNTY:
1.1 miles northwest [of] Dudley railroad bridge.
Elev. 1715 ft.
47° 5.578' N, 120° 43.043' W; T19N R17E S28; WGS 84
Rocky, disturbed soil. Other plants: *Clematis linguicifolia*, *Salix rigida*, *Populus trichocarpa*, *Pinus ponderosa*. Rays white, disk
flowers yellow; common. Phenology: Flowers. Origin: Introduced.

Don Knoke 1347

1 Jul 2007

WTU-370359

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, KITTITAS COUNTY:
Along Forest Road 3120 in Taneum.
Elev. 4639 ft.
47° 3.742' N, 120° 57.594' W; T18N R15E S10; WGS 84
Dry, rocky soil; 15° southeast-facing slope. Other plants:
Pseudotsuga menziesii, *Symphoricarpos albus*, *Phacelia hastata*,
Fragaria virginiana. Flowers white; common. Phenology: Flowers.
Origin: Introduced.

Don Knoke 1453

16 Aug 2007

WTU-370504

Asteraceae

Leucanthemum vulgare Lam.

CANADA, BRITISH COLUMBIA:
Hosmer-Wheeler mine site, southeastern British Columbia.
Elev. 3499 ft.
49° 40' N, 114° 58' W
Dry meadow. Phenology: Flowers. Origin: Introduced.

R. McLachlin s.n.

6 Aug 1976

WTU-371212

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, KITTITAS COUNTY:
Lake Keechelus. Northwestern edge of lake.
Starting from boat ramp and heading 2
kilometers northwest between shoreline and
stream leading in.
Elev. 2482 ft.
47.3819° N, 121.38618° W; WGS 84,
uncertainty: 5 m.
Seasonally exposed marsh resulting from lake
draw down. *Carex*, *Juncus*, *Equisetum* dominant
herbs, *Salix* dominant shrub. Occasional in
sandy open areas. Phenology: Flowers. Origin:
Introduced.

Jim Duemmel 25-08

with Don Knoke, David Giblin

19 Sep 2008

WTU-400831, WTU-V-007347

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., MONTANA, GRANITE COUNTY:
Deerlodge National Forest. Moose Meadow area along Forest
Service Road 5072.
Elev. 5717 ft.
46.1372° N, 113.5908° W; WGS 84, uncertainty: 5 m.
Wet and mesic meadow areas bordering stream to 2 meters wide
winding through dry *Pinus contorta* forest; *Carex utriculata* common.
Phenology: Flowers. Origin: Introduced.

Julia Gertsen 08-42

13 Jul 2008

WTU-394506

Asteraceae

Leucanthemum vulgare Lam.

RUSSIAN FEDERATION, SAKHALIN REGION:
Southern part of Sakhalin Island. Sea of Okhotsk side. Environs of
Starodubskoye Village and mouth of Nayba River.
Elev. 0 ft.
47° 26.806' N, 142° 44.483' E
Small *Picea* forest near streams and *Carex* field. Not far from sea.
Flowers next to busy road by sea. Phenology: Flowers. Origin:
Native.

Suzanne Joneson 2895

23 Jul 2001

WTU-391079

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., OREGON, GRANT COUNTY:
Malheur National Forest. Road to Lake Creek from County Road 16.
East side of road.
Elev. 5130 ft.
44.1908° N, 118.63672° W; WGS 84, uncertainty: 6 m., Source:
GPS
Wet meadow dominated by *Carex* and *Juncus* with *Pinus contorta*
along the edges. Scattered in drier areas of meadow. Phenology:
Flowers. Origin: Introduced.

John Luginbuhl 10-30

16 Jul 2010

WTU-389177

Leucanthemum vulgare Lam.

U.S.A., OREGON, GRANT COUNTY:

Trout Farm Campground and immediate vicinity; 15 miles southeast of Prairie City.

Elev. 4933 ft.

44.30439° N, 118.5518° W

Roadside. White rays; yellow disks. Phenology: Flowers. Origin: Introduced.

Doug Williams 2010-22

17 Jul 2010

WTU-388816

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, MASON COUNTY:

Olympic National Forest: along Forest Service Road 2352 ca. 1 road mile from its junction with Road 2350; 1.5 air miles SE of Spider Lake.

Elev. 477 m.

47.393807° N, 123.415017° W; WGS 84, uncertainty: 13 m., Source: GPS, Georef'd by Ben Legler

Gravelly, weedy road shoulder among second growth conifer forest. Ray flowers white; disks yellow; common along road side. Phenology: Flowers. Origin: Introduced.

**Ben Legler 12072**

23 Jul 2011

WTU-409975, WTU-V-023964

Asteraceae

Leucanthemum vulgare Lam.U.S.A., WASHINGTON, THURSTON COUNTY:
Glacial Heritage Preserve.

Elev. 167 ft.

46.86696° N, 123.04319° W; 496708E, 5190381N; WGS 84

On open prairie. Glacial outwash soil.

Ranunculus occidentalis, Camassia quamash, Viola adunca, Festuca roemerii. Flowers white, widespread. Phenology: Flowers. Origin: Introduced.

**Dan Montague 40**

with Pat Montague, Grace Diehl

7 Jun 2007

WTU-388588, wtu-v-045285

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, CHELAN COUNTY:

Wenatchee National Forest: along Potato Creek (Forest Service Road 5380) circa 2.5 road miles up creek from Entiat River Road.

Elev. 658 m.

47.806532° N, 120.350571° W; WGS 84, uncertainty: 13 m., Source: Digital map

Small flowing creek under riparian forest of Abies grandis and Pseudotsuga menziesii; brushy and herbaceous understory with moist soil. Phenology: Flowers. Origin: Introduced.

**Don Knoke 2262**

with David Giblin, Ben Legler, Alex Harkness

25 Jun 2012

WTU-410307, WTU-V-024345

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, PEND OREILLE COUNTY:

Colville National Forest: along Lost Creek at junction of Forest Service Road 4685 and spur road 550; in wetland circa 100 meters northeast of junction.

Elev. 3432 ft.

48.68087° N, 117.52019° W; WGS 84, uncertainty: 50 m.

Wet meadow with fen in center, dominated by Sphagnum, Carex spp., Drosera, Alnus sinuata, and Picea engelmannii. Ray flowers white; uncommon in meadow. Phenology: Flowers. Origin: Introduced.

**Karen Peterson 2012-1**

20 Jul 2012

WTU-408640, WTU-V-022419

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, PEND OREILLE COUNTY:

Colville National Forest. Forest Road 245 circa 5.8 miles above junction of Forest Road 250 and Sullivan Creek Road, on road to Sullivan Mountain.

Elev. 5046 ft.

48.86627° N, -117.22564° W; WGS 84, uncertainty: 500 m., Source: Nat. Geog.

TOPOI, Georef'd by John Bassett

Rays white; disks yellow. Phenology: Flowers. Origin: Native.

**Melissa Barker 2012-16**

21 Jul 2012

WTU-407002, WTU-V-019619

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, YAKIMA COUNTY:
Okanogan-Wenatchee National Forest. Along Highway 410, about 0.2 road miles southeast of junction with Little Naches River Road.
Elev. 755 m.
46.98716° N, 121.09237° W; WGS 84, uncertainty: 5 m., Source: GPS, Georeferenced by Maria Yousoufian
Disturbed roadside edge with thin gravelly soil; *Centaurea* spp. and *Cichorium intybus* common. Scattered along edge of road; rays white. Phenology: Fruits. Origin: Introduced.

Alex Harkness 12-137
with David Giblin, Ben Legler

29 Aug 2012

WTU-408950, WTU-V-022292

Asteraceae

Leucanthemum vulgare Lam.

U.S.A., WASHINGTON, PEND OREILLE COUNTY:
Colville National Forest. Slate Creek, 7 miles from State Route 31 along Forest Road 3155. Approximately 1 mile after trail, at road closure.
Elev. 4197 ft.
48.96341° N, 117.20316° W
Sloping hillside, gravel road. Mixed coniferous montane forest. Abundant in roadside. Phenology: Flowers. Origin: Introduced.
