customers**

Four of the many ways customers use Dubber

1 Compliance

Meet regulatory mandates. Respond to regulatory requests and investigations in real-time. Alert on compliance breaches. Know your customer through deep analytics and a true record of interactions.

2 Revenue, Customer & Employee Intelligence

Real-time reporting on customer and agent sentiment. Target performance improvements. Coach based on what actually was said and happened.

3 Dispute Resolution

See what was committed, ordered, and requested with automated transcription of voice conversations that connect to your CRM and other applications.

4 Turbocharge productivity

Eliminate inaccurate and time-wasting manual note taking. Capture conversations and automatically attach them to customer records in Salesforce. Distribute accurate records to teams.
